

Dear Madam, Dear Sir,

Your department **or your company frequently receives the visit** of personnel of other subsidiaries as well as many customers. Each time **you may have to organize their extra professional activities**. You also perhaps do not do that by lack of time, of idea and because it is obviously not your priority.

However, one knows that **visitors coming to Shanghai remain often frustrated** by their “business trip” not only because they have few time but also because they cannot communicate and have no reference. So they will miss, without any doubt, most of the distinctive sides of this amazing City and of its surroundings.

On the other hand, when your guest can have the chance to visit the city and to get out off the very beaten paths, he will undoubtedly have an imperishable memory and will be grateful at the company which will have been able to allow him this discovery.

**SHANGHAI LINK is there to discharge you from this task**; it can be the occasion of an original gift or simply of an information concerning a “good service” which you will give to your customers/visitors or colleagues visiting you in Shanghai.

According to your/their requests, centres of interest, free time and budget, we will **organize a flexible program and will accompany the visitors according to their choice**. Because we share the same culture and same language, we will easily understand their request and we will share with them our network, our experience and our good addresses... **so that their stay in Shanghai, even so short it is, remains an extraordinary memory!**

By experience, people profiting from this service of personalized accompaniment are pleased and charmed “**to have really tried out**” Shanghai .

So do not hesitate and  
Do contact us for more information.

Warmest regards.

**Marion MG**
